The founders of Smart Villages Africa decided to set a direction for the initiative and named it “Smart Villages Africa” registered as a NGO with the Ministry of Community Development and Social Welfare of the Government of Republic of Zambia. The NGO goes with a Vision of “Transforming Poverty to Prosperity” and the strategic direction given was to define the ends first. One of the main objects of Smart Villages is to develop Village clusters as the concept shall be relevant to group villages in vicinity with common problems and strengths. A goal to define prosperity in a village cluster is to ensure the NGO to develop a corpus funds of $300,000. A detailed methodology how to achieve this is given in the P2P Manual (TBA).
